

**MARBLE ARMS**<sup>®</sup>  
THE LEADER IN IRON GUN SIGHTS

## Game-Getter Gun Update (April 2009)

Thank you for your interest in our third generation Game-Getter Gun. We are in the process of completing our photo sample and hope to release photos along with a detailed description of the new gun in the next 60 days. Pricing, features and deliver dates will be posted also.

You will be notified at this time and be given the opportunity to place your order. We will be accepting a 50% deposit with the order. Upon receipt of your order we will give you a serial number of your gun(s) and an estimated delivery date. Our best estimation is that we will be ready to deliver guns in August 2009.

The New Game-Getter will be very similar in appearance to the 1908 model. It will have an 18-1/2" barrels. (.22 cal on top and .44/.410 on the bottom) I will have a folding sporting rear sight with windage adjustment similar to our current #95 rear sight, our modern peep tang sight with windage adjustment and the original barrel band beaded front sight. It will be accompanied by a replica leather shoulder holster and shipped in a slide top pine wood box like the original.

We have partnered with Turnbull Restoration to assemble and finish the guns with a historical charcoal bluing. After we are in full production of the third generation guns, we will be manufacturing replacement parts for the 1908 and 1921 models. Turnbull Restoration will have parts available and the ability to repair or replace barrels and other components. (including the old peep sights)

We again thank you for your interest and we are excited to offer you a new piece of our 100 year tradition. If you are interested joining the mailing list we would be happy to include you.
